Plantation operations

The revenue from plantation operations improved by 11% for the current quarter but dropped by 11% for the year-to-date as compared to the respective corresponding periods last year. In terms of profit, the current quarter recorded a profit of RM15.24 million which was significantly higher than RM8.09 million in last year same quarter. The better performance was partly due to the factors that impairment of assets and provision for contingent liabilities for RM3 million had been recognized in last year as well as higher FFB production in the current quarter. For the current year-to-date, the profit achieved was 21% lower than the corresponding period last year. The lower revenue and profit for the current year-to-date were mainly due to lower FFB price.

The FFB production for the current quarter was 88,600 MT which was 14% higher than last year third quarter. For the year-to-date, the FFB production was 235,000 MT which was 3% higher than 227,400 MT achieved in the corresponding period last year.

The plantation operations did not face problem in selling its FFB production as most of the produce was supplied to mills within the Group. The average FFB prices were 3% and 14% lower for the current quarter and year-to-date comparing to the respective corresponding periods last year.

(Company Number: 22703-K)

Palm oil milling operations

Comparing to the corresponding periods last year, the revenue for the current quarter increased by 17% while no significant difference for the current year-to-date. The milling operations have performed well and recorded a profit of RM21.55 million in the current quarter which was 57% increase comparing to the profit achieved in the corresponding period last year. For the year-to-date, the profit of RM48.65 million achieved was about 19% higher than last year corresponding period. The good performance in the current quarter and year-to-date was mainly contributed by higher processing quantity and better margin.

Total CPO production for the current quarter and year-to-date were 89,100 MT and 231,200 MT respectively which were 25% and 16% higher than the production in the corresponding periods last year.

The market condition and demand for the Group's milling products has been good and steady for the current quarter and year-to-date. The sale of CPO, the main product, for the current quarter and year-to-date were 85,600 MT and 226,900 MT respectively, which were 21% and 11% higher comparing to the respective corresponding periods last year. The average prices of CPO for the current quarter and year-to-date were in the region of RM2,050 per MT and RM2,150 per MT respectively which were about 3% and 10% lower comparing to the respective corresponding periods last year.

B2. Comparison of profit before tax for the quarter reported on with the immediate preceding quarter

The PBT for the current quarter was RM37.61 million which was 17% higher than RM32.28 million achieved in the preceding quarter ended 31 July 2015. The FFB production for the current quarter was 88,600 MT which was 8% higher than 82,200 MT achieved in the preceding quarter. As for the milling operations, FFB processed during the current quarter was 392,200 MT which was 7% higher than 365,900 MT recorded in the preceding quarter. The average price of CPO for the current quarter stood at about RM2,050 per MT level which was 7% lower than the preceding quarter.

B3. Current financial year prospects

For the financial year ending 31 January 2016, we expect the FFB production to be marginally higher while the growth in CPO production would be in the region of 15%, comparing to the quantity achieved in the financial year 2015, based on recent observation.

Subject to the fluctuation in Ringgit currency and commodity market, we hope the CPO price could remain stable at the current level in the remaining period of financial year 2016.

Based on the above, we expect the Group's performance for the financial year 2016 to be satisfactory.

B4. Variance of actual profit from forecast profit and shortfall in profit guarantee
