Profile Of Directors

MR. GOOI SEONG LIM

Aged 60, a Malaysian, was appointed to the Board of KLR as an Executive Director on 28 February 1990. He was the Managing Director of KLR up to 30 March 2006 before redesignation as the Executive Chairman of KLR. He is also a member of the Remuneration Committee with effect from 27 March 2002. He graduated from the University of Toronto, Canada, with a Bachelor of Applied Science degree in Mechanical Engineering in 1972 and a Master's degree in Mechanical Engineering in 1975. From 1972 to 1975, he was an engineer of Spar Aerospace Ltd, an engineering company based in Toronto, Canada, specialising in the design and computer simulations of Canadian Communication Satellite and subsequently, with Atomic Energy of Canada Ltd based in Toronto, Canada, a quasi-government company specialising in the design of Canadian nuclear reactors. From 1975 until to-date, he has been the Managing Director of Sharikat Kim Loong Sendirian Berhad ("SKL"), a company which owns a controlling stake in KLR and Crescendo Corporation Berhad ("CCB"), a public company listed on the Main Board of the Bursa Malaysia Securities Berhad ("Bursa Securities"). Since 1977, he has been a director of Kim Loong Palm Oil Sdn. Bhd. ("KLPO") which is involved in palm oil milling. The success of the Group owes much to his extensive involvement in plantation and milling operations. He also sits on the Board of CCB and several other private companies.

Mr Gooi has no personal interest in any business arrangement involving KLR, except that he is deemed interested in the transactions entered into with SKL Group (excluding KLR) which are carried out in the ordinary course of business, by virtue of his directorship and shareholding in SKL. He has not been convicted of any offences within the past 10 years. He attended three (3) of the four (4) Board meetings held during the financial year 2009.

MR. GOOI SEONG HEEN

Aged 58, a Malaysian, was appointed to the Board of KLR as an Executive Director on 28 February 1990. He was redesignated as Managing Director on 30 March 2006. He was also a member of the Audit Committee until 8 January 2008. He graduated with a Bachelor of Applied Science degree in Chemical Engineering from the University of Toronto in 1972 and obtained a Master's degree in Business Administration from the University of Western Ontario, Canada in 1976. He served as an engineer with Esso Singapore Pte Ltd from 1973 to 1974. His experience embraces oil palm and rubber estate management, palm oil mill management and property development. From 1972, he has been a Director of SKL, a company which owns a controlling stake in KLR and CCB. Since 1977, he has been a director of KLPO Group which is involved in palm oil milling. He is currently a director of CCB and several other private companies.

Mr Gooi has no personal interest in any business arrangement involving KLR, except that he is deemed interested in the transactions entered into with SKL Group (excluding KLR) which are carried out in the ordinary course of business, by virtue of his directorship and shareholding in SKL. Statement on Corporate Governance

INTRODUCTION

The Statement on Corporate Governance by the Board of Directors has been set in accordance with the Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities").

The Board of Directors is committed to ensure that a high standard of corporate governance is practised throughout Kim Loong Resources Berhad and its subsidiaries ("the Group") as a fundamental part of discharging its responsibilities to protect and enhance shareholders' value and the financial performance of the Group.

The Board of Directors is pleased to report to the shareholders on the manner the Group has applied the principles of good corporate governance and the extent of compliance with the Best Practices of Good Governance as set out in Part 1 and Part 2 respectively of the Malaysian Code of Corporate Governance ("the Code") throughout the financial year ended 31 January 2009.

1. BOARD OF DIRECTORS

1.1 The Board

Kim Loong Resources Berhad is led and managed by an effective Board comprising of members with a wide range of experience in relevant fields such as, plantation management, palm oil milling, engineering, business administration, finance, planning, development and marketing. They collectively bring a wide range of competencies to support the business direction of the Group. The Board as at 31 January 2009, comprised seven (7) directors consisting of:

- An Executive Chairman;
- A Managing Director;
- Two (2) Executive Directors;
- A Senior Independent Non-executive Director; and
- Two (2) Independent Non-executive Directors.

A profile of each Director is presented on pages 14 to 16 of this Annual Report.

Three (3) out of the seven (7) members of the Board that is more than one third (1/3) are Independent Non-executive Directors. The Independent Non-executive Directors namely Mr Gan Kim Guan, Mr Teoh Cheng Hai and Mr Chew Poh Soon play an important role of objectively assessing management strategies and practices and their impact on the long term interests of the shareholders fulfill a pivotal role in corporate accountability. Although all Directors have an equal responsibility to the Group, the role of these Independent Non-executive Directors is particularly important as they provide unbiased and independent views, advice and judgement to take account of the interests not only of the Group, but also the shareholders, employees, customers, suppliers and community in which the Group conducts its business. All Non-executive Directors are independent of the management and free from any relationship which could interfere with their judgement.

The Board has identified Mr. Gan Kim Guan to act as the Senior Independent Non-executive Director to whom concerns regarding the Group may be conveyed. He may be contacted at 03-92871889 or e-mail: gankg@kimloong.com.my

1.2 The Board's Responsibilities

The Board retains full and effective control of the Group. It is responsible for among other things, review and adoption of strategic directions for the Group, overseeing business performance, ensuring the adoption of appropriate risk management systems and ensuring the establishment of proper internal control systems.

The Board has reviewed the size of the Board and considers the current composition as optimum and effective given the scope, size and complexity of the business affairs of the Group and in compliance with the Independent Non-executive Directors criteria set out under the Listing Requirements of Bursa Securities.

The Board, together with the Audit Committee, reviews internal control and risk management systems within the organisation to ensure safe custody and effective and efficient utilisation of the Group's assets.

The Group has a succession plan, which inter alia includes appointing, training, fixing of compensation and replacing senior management of the Group, if required.

1.3 Division of roles and responsibilities between Executive Chairman and Managing Director

The Board has appointed Mr. Gooi Seong Lim, as its Executive Chairman, and Mr. Gooi Seong Heen as the Managing Director of the Group. Both have many years of experience in managing the Group's core businesses. The Group practises separate and divided responsibilities between the Executive Chairman and the Managing Director and these two positions are held by two separate persons. As part of good governance, the Chairman is responsible for ensuring Board effectiveness and

Statement on Corporate Governance (cont'd)

conduct. He encourages a healthy debate on issues raised at meetings and gives every opportunity to directors who wish to speak out. Every Board resolution is then put to a vote which would reflect the collective decision of the Board and not individuals or an interest group.

The Group's Managing Director has the overall responsibility for the profitability and development of the Group. He is responsible for the stewardship of all the Group's assets, day to-day running of the business and implementation of Board decisions and clarifying matters relating to the Group's business to the Board. The Managing Director's in-depth and intimate knowledge of the Group's affairs contribute significantly towards the ability of the Group to achieve its goals and objectives.

1.4 Board Meetings and Attendance

Board meetings are scheduled at least once every quarter, with additional meetings convened as and when required. During the financial year ended 31 January 2009, there were four (4) Board meetings. The composition of the Board and the attendance of each Director at the Board meetings held during the financial year were as follows:

Name of Director	Status of Directorship	Number of Board Meetings Attended	Percentage (%)
Gooi Seong Lim	Executive Chairman	3 of 4	75%
Gooi Seong Heen	Managing Director	4 of 4	100%
Loo Geok Eng	Executive Director (Deceased on 13 August 2008)	2 of 2	100%
Gooi Seong Chneh	Executive Director	4 of 4	100%
Gooi Seong Gum	Executive Director	4 of 4	100%
Gan Kim Guan	Senior Independent Non-executive Director	4 of 4	100%
Teoh Cheng Hai	Independent Non-executive Director	4 of 4	100%
Chew Poh Soon	Independent Non-executive Director	4 of 4	100%

1.5 Supply of Information to the Board

In exercising their duties, all Directors have the same right of access to all information within the Group and they have a duty to make further enquiries which they may require in discharging their duties. The Directors also have access to the advice and services of the Company Secretary, who is available to provide them with appropriate advice and services to ensure that Board meeting procedures are followed and all applicable rules and regulations are complied with. In addition and in furtherance of their duties, the Directors may seek independent professional advice at the Company's expense.

All Directors are provided with an agenda and a set of comprehensive Board papers, issued within sufficient time prior to Board meetings to ensure that the Directors can appreciate the issues to be deliberated on, and where necessary, to obtain further explanation. Senior management staff and external advisors may be invited to attend Board meetings, to advise and provide the Board with detailed explanations and clarifications whenever necessary on matters that are tabled.

Other matters highlighted for the Board's decision include the approval of corporate plans, acquisitions and disposals of assets that are material to the Group, major investments, changes to management and control structure of the Group, including key policies, procedures and authority limits.

The Chairman is primarily responsible for ensuring that sufficient information is provided to the Directors and that they have full and timely access to information to assist them in their deliberations.

1.6 Appointment and Election to the Board

Appointment

The Board appoints its members through a formal and transparent process which is consistent with the Company's Articles of Association. The appointment of new member(s) of the Board as well as the proposed re-appointment/re-election of Directors seeking re-appointment/re-election at the Annual General Meeting ("AGM") are recommended by the Nominating Committee to the Board for its approval.

The Board constantly reviews its effectiveness as a whole, the various Committees of the Board and the contributions of each director. All assessments and evaluations carried out by the Nominating Committee in discharging all its functions are properly documented. All newly appointed Directors are subject to re-election by the shareholders at the AGM following their appointment.

Statement on Corporate Governance (cont'd)

Re-election

The Company's Articles of Association provide that nearest to one-third (1/3) of the Board are required to retire by rotation at each AGM provided always that each Director shall retire at least once in every three years. The Directors to retire in each year are the Directors who have been longest in office since their appointment or re-appointment in accordance with the Articles of Association. This provides an opportunity for shareholders to renew their mandate. To assist shareholders in their decision, sufficient information such as personal profile and meeting attendance of each Director standing for election at the forthcoming AGM are shown in the Notice of AGM (Ordinary Resolution 3 & 4) on page 6.

2. BOARD COMMITTEES

The following Board Committees have been established to assist the Board in discharging its duties and the execution of specific responsibilities. All the Committees listed below do not have any executive power but report to the Board on all matters considered and submit recommendations for Board's approval (except the power of the Audit Committee to report to the Bursa Securities in circumstances described in the Audit Committee Report).

2.1 Audit Committee

The Audit Committee reviews the issues of accounting policies and presentation for external financial reporting, monitors the work of internal audit function and ensures that an objective and professional relationship is maintained by the external auditors. Its principal function is to assist the Board in maintaining a sound system of internal control. The Committee has full access to the auditors both internal and external, who in turn, have access at all times to the Chairman of the Audit Committee.

In line with good corporate governance practices, the Executive Directors are not member of the Audit Committee.

The terms of reference of the Audit Committee together with the Report of the Audit Committee are disclosed on pages 35 to 37 of this Annual Report. The activities of the Audit Committee during the year ended 31 January 2009 are also set out in the Report of the Audit Committee.

2.2 Remuneration Committee

The Remuneration Committee is responsible for reviewing and recommending to the Board the remuneration framework for Executive Chairman, Managing Director and Executive Directors and assists the Board in ensuring that the remuneration is commensurate with the responsibilities and duties undertaken by each.

The terms of reference of the Remuneration Committee are set out under the Report of the Remuneration Committee on page 38 of this Annual Report.

2.3 Nominating Committee

The Nominating Committee is made up entirely of Non-executive Directors.

The Committee is responsible for identifying and recommending new nominees to the Board as well as Committees of the Board. In addition, the Committee is also entrusted with the task of assessing annually the performance of the Board members, the Committees of the Board and effectiveness of the Board as a whole. The Nominating Committee also considers the balance of the Board membership and determines the core competencies and skills required of the Board in order to discharge its duties effectively.

The terms of reference of the Nominating Committee are set out under the Report of the Nominating Committee on page 39 of this Annual Report.

3. DIRECTORS' TRAINING

All existing Directors have completed the "Mandatory Accreditation Programme" conducted by the Research Institute of Investment Analyst Malaysia (RIIAM) as prescribed by the Listing Requirements of Bursa Securities.

Directors are also encouraged to participate in seminars and/or conferences organised by relevant regulatory authorities, professional bodies and commercial entities providing training. It is part of their Continuous Education Programme to keep abreast with relevant new developments on a continuous basis on the general regulatory, economic, industry and technical developments to further enhance their skills, knowledge and experience as well as update themselves on new developments in the business environment in order to fulfil their duties as Directors.

Statement on Corporate Governance (cont'd)

The Remuneration Committee is responsible for setting the policy framework of the Executive Directors' remuneration packages and makes recommendations to the Board on the elements of the remuneration and other terms of appointment to the Board. The Executive Directors abstain from the deliberations and voting in respect of their remuneration. Nevertheless, it is the ultimate responsibility of the Board to approve the remuneration of these Directors. All Independent Non-executive Directors are paid director's remuneration for serving as Directors on the Board and its Committees. All Directors are paid a meeting allowance for attendance at each Board meeting.

5. SHAREHOLDERS COMMUNICATIONS AND INVESTORS RELATIONS**5.1 Dialogue between the Group and Investors**

The Board adheres to the disclosure requirements of Bursa Securities and ensures timely release of the financial results on a quarterly basis in order to provide its shareholders with an overview of the Group's financial and operational performance. In addition, it communicates with its shareholders, institutional and potential investors through various announcements made during the year.

The Annual Report is also an important channel of communication to reach shareholders and investors as it provides comprehensive information pertaining to the Group.

In addition, the Group recognises the need for independent third party assessment of itself. In this regard, the Executive Chairman, Managing Director and key senior management of the Group also conduct dialogue sessions or briefings with Investment/Financial Analysts and the Press on the results, performance and the potential of new developments of the Group. These briefings enable a direct and frank dialogue on the affairs of the Group.

Other avenues whereby shareholders and interested stakeholders have access to company data are through quarterly filing of financial data at Bursa Securities and via the Company's website at www.kimloong.com.my which they can access for information about the Group.

Shareholders and stakeholders can also contact Mr. Gan Kim Guan, the Senior Independent Non-executive Director on matters concerning the Group. He may be contacted at 03-92871889 or e-mail: gankg@kimloong.com.my

Statement on Corporate Governance (cont'd)

5.2 AGM

The AGM is the principal forum of dialogue with shareholders. Notice of AGM together with a copy of the Company's Annual Report is sent to shareholders at least fourteen (14) days prior to the meeting. Each item of special business included in the notice of meeting is accompanied by an explanation for the proposed resolution.

At the AGM, the Board presents the progress and performance of the Group as contained in the Annual Report and shareholders are encouraged to participate and are given every opportunity to raise questions or seek more information during the meeting. The Executive Chairman, Managing Director and Board members are available to respond to all shareholders' queries.

Apart from the AGM and Annual Report, the financial results are disseminated on a quarterly basis to Bursa Securities. Other public information and significant items affecting the Group are reported through the Bursa Securities from time to time via announcements.

Shareholders who are unable to attend are allowed to appoint proxies to attend and vote on their behalf. Shareholders can also leave written questions for the Board to respond.

5.3 Annual Report

The Directors believe that an important channel to reach shareholders and investors is through the Annual Report. Besides including comprehensive financial performance and information on the business activities, the Group strives to improve the contents of the Annual Report in line with the developments in corporate governance practices.

The Company's Annual Report can be accessed at the Company's website at www.kimloong.com.my.

Bursa Securities also provides for the Company to electronically publish all its announcements, including full version of its quarterly results announcements and Annual Report at its website at www.bursamalaysia.com.

6. ACCOUNTABILITY AND AUDIT**6.1 Financial Reporting**

The Board aims to present a balanced and meaningful assessment of the Group's financial performance and prospects to the shareholders, investors and regulatory authorities, primarily through the annual financial statements and Chairman's Statement in the Annual Report.

In presenting the annual financial statements and quarterly announcement of results to shareholders, the Directors are responsible to present a balanced, clear and meaningful assessment of the Group's financial positions and future prospects.

The Audit Committee assists the Board in scrutinising information for disclosure to ensure accuracy, adequacy and completeness of information.

6.2 Internal Control

The Board acknowledges that it is responsible for ensuring that the Group's system of internal control for the Group is sound and provides reasonable assessment of effective and efficient operations, financial controls and compliance with laws and regulations as well as with internal procedures and guidelines.

The review on the systems of internal control is set out under the Statement on Internal Control as set out in pages 30 to 32 of this Annual Report.

6.3 Internal Audit Function

The Internal Audit function of the Group has been outsourced to the Internal Audit Department ("IAD") of the Group's holding company, Sharikat Kim Loong Sendirian Berhad which acts independently from the activities and operations of the Group.

The internal audit function includes the review of the adequacy of the internal controls, the efficiency of operations and ensures compliance with the established Group policies and procedures, and the statutory requirements.

The Head of IAD reports directly to the Audit Committee on its activities based on the approved annual Internal Audit Plan. The Audit Committee reviews and approves the audit plan, which identifies the scope of work for the year. During the financial year under review, the internal auditors conducted audits on business units and carried out regular reviews of the operations of the companies within the Group in accordance with the approved Internal Audit Plan.

Statement on Corporate Governance (cont'd)

The main role of the IAD is to provide the Audit Committee with independent and objective reports on the effectiveness of the system of internal control within the Group so as to provide reasonable assurance that the system continues to operate satisfactorily and effectively. It is also the responsibility of IAD to assess the extent of the business units' compliance with Group's established procedures and relevant statutory requirements. The Audit Committee then deliberates on the internal audit reports to ensure recommendations from the report are duly acted upon by management.

The estimated total cost incurred in relation to the internal audit function of the Group for financial year ended 31 January 2009 is RM190,000.

6.4 External Audit Function

Through the Audit Committee, the Group has established a good working relationship with its External Auditors. The Company's External Auditors is appointed every year during the AGM.

The Group has maintained a close, transparent and professional relationship with its External Auditors i.e. Messrs SKW Associates in seeking professional advice and ensuring compliance with the applicable Financial Reporting Standards in Malaysia as well as the auditors' professional requirements. Messrs SKW Associates reports to the shareholders of the Company on its opinion which are included as part of the Group's Annual Report with respect to their audit on each year's statutory financial statements.

7. DIRECTORS' RESPONSIBILITY STATEMENT

The Board of Directors is required under Paragraph 15.27(a) of the Listing Requirements of Bursa Securities to issue a statement explaining their responsibilities in the preparation of the annual financial statements.

The Directors are required by the Companies Act, 1965 ("the Act") to prepare financial statements for each financial year which give a true and fair view of the financial position of the Group and of the Company at the end of the financial year and their results, changes in equity and cash flows of the Group and of the Company for the financial year then ended. As required by the Act and the Listing Requirements of Bursa Securities, the Financial Statements have been prepared in accordance with the applicable Financial Reporting Standards and the provisions of the Act.

Therefore, in preparing these Financial Statements, the Directors have:

- adopted suitable accounting policies and applied them consistently;
- made judgements and estimates that are prudent and reasonable;
- ensured applicable Financial Reporting Standards have been followed; and
- prepared the financial statements on a going concern basis.

The Directors took steps to ensure that the Group and the Company keep proper accounting records which disclose with reasonable accuracy at any time the financial position of the Group and of the Company and which enable them to ensure that the financial statements comply with the Companies Act, 1965 and applicable Financial Reporting Standards in Malaysia.

The Directors have overall responsibility for taking such steps that are reasonably open to them to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

8. ADDITIONAL COMPLIANCE INFORMATION

To comply with the Listing Requirements of Bursa Securities, the following information is provided:

8.1 Utilisation of Proceeds from Corporate Proposals

8.10 Revaluation Policy

The Group's revaluation policy is stated in Notes 2(c) and 2(d) to the Financial Statements.

8.11 Recurrent Related Party Transactions

Details of transactions with related parties undertaken by the Group during the financial year are disclosed in Note 38 to the Financial Statements.

9. STATEMENT OF COMPLIANCE WITH THE BEST PRACTICES OF THE CODE

The Company is committed to achieving high standard of corporate governance throughout the Group and to the highest level of integrity and ethical standards in all its business dealings. The Board is of the opinion that it had complied with the Best Principles as set out in the Code of Corporate Governance throughout the financial year ended 31 January 2009 except for the details of Directors' remuneration. The Company complies with the disclosure requirements under the Listing Requirements of Bursa Securities i.e. disclosure of Directors' Remuneration by applicable bands of RM50,000. The Board is of the view that the transparency and accountability aspects of Corporate Governance as applicable to Directors' Remuneration are appropriately served by the band disclosure made on page 26. In addition, the composition of the Remuneration Committee has been fully disclosed on page 38 of the Annual Report.

This Statement is made in accordance with a resolution of the Board dated 26 June 2009.

Statement On Internal Control

(Pursuant to paragraph 15.27 (b) of the Listing Requirements of Bursa Malaysia Securities Berhad)

1.0 INTRODUCTION

The Board of Directors of Kim Loong Resources Berhad is pleased to present its Statement on Internal Control for the financial year ended 31 January 2009, prepared in accordance with the Bursa Malaysia Securities Berhad's "Statement on Internal Control: Guidance for Directors of Public Listed Companies".

2.0 BOARD RESPONSIBILITIES

The Board acknowledges its responsibilities for maintaining a consistently sound internal control environment to safeguard shareholders' interests and the Group's assets; and for reviewing the adequacy and integrity of these systems. Such systems, however, are designed to manage rather than to eliminate the risk of failure to achieve business objectives, and can only provide reasonable rather than absolute assurance against material misstatement or loss. The process to identify, evaluate and manage the significant risks is a concerted and continuing effort throughout the financial year under review.

The Board sets the policy on internal controls after conducting a proper assessment of operational and financial risks by considering the overall control environment of the organisation and an effective monitoring mechanism. The Managing Director and his management carry out the process of implementation and maintenance of the control systems. Except for insurable risks where insurance covers are purchased, other risks are reported on a general reporting basis to and managed by the respective Committees within the Group.

The Board confirms that as an integral part of the system of internal control, there is an on-going risk management process to identify, evaluate, and manage significant risks to effectively mitigate the risks that may impede the achievement of the Group's businesses and corporate objectives. The Board reviews the process on a regular basis to ensure proper management of risks and measures are taken to mitigate any weaknesses in the control environment. Management has operated this process during the year under review up to the date of approval of this Annual Report.

3.0 KEY INTERNAL CONTROL PROCESSES

In reviewing and ensuring the adequacy and integrity of the internal control system, the Board has established the following key elements in the internal control framework of the Group.

3.1 Risk Management Framework

The Group has put in place a Risk Management Committee ("RMC") that is chaired by the Managing Director and its members comprise Executive Directors, Heads of Divisions & Departments ("HODS") and staff from key operations. HODS are trained to lead the risk management functions of their respective operations. They have also been trained to identify the risks relating to their areas; the likelihood of these risks occurring; the consequences if they do occur; and the actions being and/or to be taken to manage these risks to the desired level. The risk profiles and risk treatment measures determined from this process are documented in risk registers with each business or operations area having its respective risk register. The risk registers are eventually compiled to form the Group Risk Profile for reporting to the RMC and the Audit Committee.

3.2 Organisation Structure and Authorisation Procedures

The Group maintains a formal organisational structure with clear lines of reporting to the Board, Committees and Senior Management with defined roles and responsibilities, authority limits, review and approval procedures and proper segregation of duties which supports the maintenance of a strong control environment.

Specific responsibilities have been delegated to relevant Committees, all of which have formalised terms of reference. These Committees have the authority to examine all matters within their scope and report to the Executive Directors / Managing Director / Executive Chairman / Board with their recommendations.

3.3 Internal Audit Function

The Internal Audit Function has been undertaken by the IAD of the Group's holding company, Sharikat Kim Loong Sendirian Berhad.

The IAD undertakes regular reviews of the Group's operations and their system of internal control. They provide continuous improvement to the controls and risk management procedures. Internal audit findings are discussed at management level and actions are determined in response to the Internal Auditors' recommendations. The status of implementation of the agreed actions is followed up by the Internal Auditors to ensure that satisfactory control is maintained.

Statement On Internal Control (cont'd)

The IAD regularly reports on compliance with internal control and procedures to the Audit Committee. They also ensure that recommendations to improve control are being followed through by the management. The Audit Committee reviews all internal audit findings and management responses and the effectiveness of the risk management process. Significant risk issues are referred to the Board for consideration. The Board reviews the minutes of the Audit Committee meetings.

3.4 Operations Review and Monitoring

Operations of the Group are constantly monitored with up-to-date reports being presented by the Management, which reviews the performance of the Group against budget and prior year performance on a monthly basis. Variances are carefully analysed and corrective actions taken where necessary. Detailed reports on performance review with steps to be taken are presented to the Executive Directors periodically.

The Plantation General Manager and Executive Directors regularly visit the Group's estates to monitor their state of affairs. During the visits, the estate managers report on the progress and performance, discuss and resolve the estates' operational and key management issues.

Executive Directors also monitor the performance of the estates through reports produced by the external Planting Advisor and in-house Agronomist. The roles of the Planting Advisor and Agronomist are to ensure that the technical aspects of all estates under the Group are based on current best practices in plantation management.

The Milling Operations are regularly visited by the Managing Director, Executive Directors and the Mill Advisor. During the visits, the managers report on the mill performance, discuss and resolve all operational and key management issues faced by them.

3.5 Human Capital Development and Training

Emphasis is being placed on enhancing the quality and ability of employees through training and development. Employees' competencies are assessed annually through the annual appraisal system and subsequently, potential areas for further development and training are highlighted by the Heads of Departments and business units for follow up.

3.6 Other Key Elements of Internal Control

Other key elements of procedures established by the Board which provide effective internal control include:

- Other Directors also visit the Group's estates and mills. Their comments and suggestions for improvement are directed to the Executive Chairman, Managing Director and/or Executive Directors.
- The Finance Department monitors the activities and performance of the subsidiaries through the monthly management accounts and ensures control accounts are reconciled with the subsidiaries records.
- Adequate insurance and physical safeguarding of major assets are in place to ensure these assets are sufficiently covered against any mishap that may result in material losses to the Group.
- The documented policies and procedures form an integral part of the internal control system to safeguard the Group's assets against material losses and ensure complete and accurate financial information. The documents consist of memoranda, circulars, manuals and handbooks that are regularly revised and updated to meet operational needs.
- All recurrent related party transactions are dealt with in accordance with the Listing Requirements of Bursa Securities. The Audit Committee and the Board review the recurrent related party transactions at the respective meetings of the Audit Committee and the Board.

Statement On Internal Control (cont'd)

4.0 REVIEW OF STATEMENT BY EXTERNAL AUDITORS

Pursuant to paragraph 15.24 of the Listing Requirements of Bursa Securities, the External Auditors have reviewed this Statement on Internal Control for inclusion in the Annual Report for the financial year ended 31 January 2009. Their review was performed in accordance with Recommended Practice Guide 5 (RPG 5) issued by the Malaysian Institute of Accountants. Based on their review, the External Auditors have reported to the Board that nothing has come to their attention that causes them to believe that this Statement is inconsistent with their understanding of the process adopted by the Board in reviewing the adequacy and integrity of the system of internal control of the Group.

5.0 CONCLUSION

The Board is of the view that the system of internal control in place throughout the year under review is sound and sufficient to safeguard the shareholders' investment, the interests of customers, regulators, employees and the Group and to facilitate the expansion of its operations. Additionally, the Board regards the risks faced by the Group are within acceptable levels to the business environment within which the Group operates.

There were no material losses or fraud during the current financial year as a result of internal control failures and the Board and Management are continuously taking measures to improve and strengthen the internal control framework and environment of the Group.

This Statement is made in accordance with a resolution of the Board of Directors dated 26 June 2009.

Statement On Corporate Social Responsibilities

The Group does not have a formal Corporate Social Responsibilities ("CSR") Policy. However, as a socially responsible corporation, the Group supports and contributes positively to the sustainable development of the economy and the community where the Group operates. It places importance on its CSR and remains committed to care for the environment and employees, fostering strong relationships with business associates and supporting worthy community welfare causes as part of its business ethics and responsibilities.

Marketplace

The setting up of a palm oil mills at Sook-Keningau and Telupid in Sabah by our Group has spurred the economic activities in their respective surrounding areas. More locals are earning higher income by cultivating oil palm which is more profitable than the traditional crops. Our Keningau Mill now accepts FFB from more than 300 smallholders.

Workplace

Cognisant that a team of dedicated and motivated employees plays a crucial role in ensuring that the Group is well poised to meet present and future challenges, the Group continues to place emphasis on developing its human capital, the organisation's most valuable asset. The Group had a total workforce of over 1,950 as at 31 January 2009.

The Group has also invested substantially on the construction of roads, employees housing, provision of free electricity and water supplies to them in the estates with the objective of providing better living conditions. Free/subsidised transportation is provided for school going children to the nearest school. We also provide recreational activities for the residents e.g., football field, volleyball and sepak takraw courts for the residents. Vegetable and fruit tree planting within the housing compound are promoted to enhance food sufficiency by way of provision of seeds and young plant. Annual kenduri was conducted to foster better relations between the staff and workers. The roads leading to the estates are properly maintained to facilitate the movements of vehicles. Some of our main roads have benefited the neighbouring villagers as they also use these roads to go to the nearest town.

The Group has carried out various activities to improve the workforce knowledge, quality of life and foster a sense of belonging, such as:

- Conducting in-house training for the staff on communication, legal, accounting, technical issues and management skills. Where specialist training is required, the staff are sent for external training;
- Various staff activities including festival celebrations and sporting events through the In-House Sports Club;
- A partially subsidised company trip to Cambodia and Kota Kinabalu was organised for the staff and their family members; and
- During the financial year, at the height of the rise of petrol prices, our employees were provided with a Special Relief Allowance to cope.

In accordance with its tradition in appreciation for the contributions of our staff, business associates and partners an annual dinner was organised at a five star hotel in Johor Bahru.

Community

Our Group has over the years placed great emphasis on enhancing the quality of life of the communities where we operate. This is evidenced by the Group's wide-ranging contributions in areas of education, infrastructure, cultural and social development initiatives. It is the Group's practice to create and offer priority in job opportunities to local villagers, either by way of direct employment or through the award of contract works. This policy has proven effective in improving their living standards.

The Group is involved in the development of land belonging to an orphanage into an oil palm estate under a joint venture agreement, providing good long term income and development fund to the Al-Yatama organisation for its charity work.

During the year, the Group has assisted trainees from various universities, institutes of higher learning and training centres to undergo their practical training. Suitable candidates have been offered employment after they have completed their training.

The Group also made several contributions and donations amounting to approximately RM170,000 to worthy causes and organisations including:

- Embassy of The People's Republic of China for earthquake victims in China
- Rotary Club of Tebrau Foundation
- Various amounts were donated to governmental and non-governmental organisations to support their sports, cultural and welfare activities
- Donations to schools for building funds, sports day and Persatuan Ibu Bapa & Guru in Johor and Sabah.

Statement On Corporate Social Responsibilities (cont'd)

Annual Dinner

Environment

The Group supports conservation of the environment by actively managing its resources in a responsible manner by developing and implementing environmental-friendly practices such as zero burning, soil and water conservation measures and avoids practices that may harm the environment irreversibly in its estates.

The Group has successfully implemented the methane capture and power generation project which will reduce greenhouse gas emissions as well as supply low cost steam and electricity for milling operations and other downstream activities of the Group. This is the first project in the world that is registered with the Clean Development Mechanism ("CDM") Executive Board of United Nations Framework Convention on Climate Change ("UNFCCC") on biogas generated from palm oil mill effluent. The sales of the Certified Emission Reduction ("CER") generated by the project to third party will start in 2009.

These projects will contribute towards reducing the environmental impact and improve sustainability of the palm oil industry.

SUMMARY OF ACTIVITIES OF THE AUDIT COMMITTEE

The Audit Committee met at scheduled times; with due notices of meetings issued, and with agenda planned and itemised so that issues raised were deliberated and discussed in a focused and detailed manner.

During the financial year 2009, the Audit Committee has discharged its duties and responsibilities in accordance with its terms of reference. The main activities undertaken by the Audit Committee were as follows:

Financial and Operations Review

- Reviewed operational reports;
- Reviewed and recommended for the Board's approval the quarterly reports for announcement to the Bursa Securities in compliance with the Financial Reporting Standards and adhered to other legal and regulatory requirements;
- Reviewed the annual audited financial statements of the Group and the Company with the External Auditors prior to submission to the Board for approval;
- Reviewed the outcome of the risk management programme, including key risks identified, the potential impacts and the likelihood of the risks occurring, existing controls which can mitigate the risks and action plans; and

Report Of The Audit Committee (cont'd)

- Reviewed the application of the corporate governance principles and the extent of the Group's compliance with Best Practices set under the Malaysian Code of Corporate Governance in conjunction with the preparation of the Corporate Governance Statement and Internal Control Statement.

External Audit

- Reviewed the External Auditor's annual audit plan and audit strategy for the financial year ended 31 January 2009 to ensure their scope of work adequately covered the activities of the Company and the Group
- Discussed with the management and the External Auditors the Financial Reporting Standards applicable to the financial statements of the Company and the Group that were applied and their judgement of the items that may affect the financial statements;
- Reviewed with the External Auditors, the result of the audit, the audit report and internal control recommendations in respect of control weaknesses noted in the course of the audit that required appropriate actions and the Management's responses thereon.
- Reviewed and evaluated the External Auditor's performance, objectivity and independence during the year before recommending to the Board for re-appointment and remuneration.
- Held independent meetings (without the presence of Management) with the External Auditors on significant findings in the course of the audit.

Internal Audit

- Reviewed and approved the Internal Audit Department's ("IAD") resource requirement, programmes and plans for the financial year to ensure adequate coverage over the activities of the respective subsidiaries.
- Reviewed the internal audit reports presented by the IAD on findings, recommendations and management responses thereto and ensured that material findings were adequately addressed by the Management and relevant issues reported to the Board.
- Prepared the Audit Committee report for inclusion in the Annual Report 2009;
- Held independent meetings (without the presence of Management) with the Internal Auditors on significant findings in the course of the audit.

Risk Management

- Reviewed the Risk Management Committee's reports and assessment.

Related Party Transactions

- The Audit Committee reviewed all significant related party transactions entered by the Company and the Group to ensure that such transactions are undertaken at arm's length basis on normal commercial terms which are not detrimental to the interests of the minority shareholders of the Company and the internal control procedures employed are both sufficient and effective before recommending to the Board for approval.

Employees Share Options Scheme ("ESOS")

- Reviewed the list of eligible employees and the allocation of options to be offered to them in accordance with the By-laws of the ESOS.

INTERNAL AUDIT FUNCTION

The Internal Audit function of the Group has been outsourced to the IAD of the Group's holding company, Sharikat Kim Loong Sendirian Berhad.

The Head of IAD reports directly to the Audit Committee on its activities based on the approved annual Internal Audit Plan. The IAD adopts a risk-based auditing approach taking into account best practices and industry standards.

The main role of the IAD is to provide the Audit Committee with independent and objective reports, perform with impartiality, proficiency and due professional care on the effectiveness of the system of internal control within the Group so as to provide reasonable assurance that the system continues to operate satisfactorily and effectively. It is the responsibility of the internal audit to provide the Audit Committee with independent and objective reports on the state of internal control of the Group's operations and the extent of the business units compliance with Group's established procedures and relevant statutory requirements. The Audit Committee then deliberates on the internal audit reports to ensure recommendations from the report are duly acted upon by management.

During the financial year under review, the internal auditors conducted audits on business units and carried out regular reviews of the operations of the companies within the Group in accordance with the approved Internal Audit Plan

This Statement is made in accordance with a resolution of the Board of Directors dated 26 June 2009.

Chairman's Statement

On behalf of the Board of Directors of Kim Loong Resources Berhad ("KLR"), I am pleased to present to you the Annual Report and Audited Financial Statements for the financial year ended 31 January 2009.

RESULTS

I am pleased to report that the Group achieved a 9% increase in Profit Before Tax ("PBT") compared to financial year 2008 despite higher production costs due to volatile commodity prices and sharp drop in palm oil prices in the second half of financial year 2009. Revenue and PBT were at record highs of RM507.1 million and RM104.4 million respectively for the financial year 2009 compared to RM469.9 million and RM96.0 million for the financial year 2008.

The 8% and 9% growth in revenue and PBT respectively were mainly contributed by 10% higher FFB production and higher Crude Palm Oil ("CPO") price which was about 7% more than last year.

DIVIDEND

In view of the satisfactory financial performance, the Board has recommended a final dividend of 3 sen per share comprising 2.5 sen less 25% tax and 0.5 sen tax exempt (2008: final dividend of 5 sen per share, less 25% tax), for the financial year 2009 making a total dividend of 36 sen per share, of which 35.5 sen is less 25% tax and 0.5 sen is tax exempt (2008 : 13 sen per share, less 26% tax and 5 sen per share, less 25% tax).

CORPORATE ACHIEVEMENTS AND DEVELOPMENTS

1. Awards and Achievements

We are proud to report that our effort and commitment to improve efficiency and productivity has once again been recognised by an award given to our Keningau mill from Malaysia Palm Oil Board ("MPOB") as the mill with the highest Oil Extraction Rate ("OER") in Malaysia in 2007. The previous awards won by the Company from MPOB include achieving OER exceeding 25% by our Keningau mill in 2005 and Most Innovative Mill by our Kota Tinggi mill in 2002.

In 2008, the Company also received an award from Malaysia Cocoa Board under cocoa estate category.

2. Bonus Issue

On 15 August 2008, the Company completed the Bonus Issue of 86,247,636 ordinary shares of RM1.00 each in the Company on the basis of two (2) new shares for every five (5) existing shares of RM1.00 each held in the Company by way of capitalizing the Company's share premium account and part of retained earnings. This has increased the Company's share capital base to better reflect the size of the operations of the Group and also reward the shareholders of the Company for their support and loyalty to the Group. The Bonus Issue will also enable the shareholders of the Company to have greater participation in the equity of the Company in terms of number of shares held while maintaining their percentage of equity interest.

Chairman's Statement (cont'd)

Award by MPOB as highest OER mill in Malaysia in 2007

Award by Malaysia Cocoa Board in 2008

3. Share Buy-Back Scheme

The Share Buy-Back scheme of up to ten percent (10%) of the issued and paid-up capital of the Company was duly approved by the shareholders at an Extraordinary General Meeting held on 23 February 2009. The Share Buy-Back scheme enables the Company to utilise the surplus financial resources to purchase its own shares listed on Bursa Malaysia Securities Berhad ("Bursa Securities") which may help to stabilise the demand and supply of the Company's shares traded on Bursa Securities. Consequently, the earnings per share of the Company is expected to improve which should have a favourable impact on the market prices of the Company's shares. Moreover, the Company is able to keep the shares bought back as treasury shares and subsequently either resell them on Bursa Securities to realise capital gains or distribute them to the shareholders of the Company, in lieu of cash dividends.

PALM OIL MILLING OPERATIONS

The palm oil milling operations recorded an increase of 8.7% in revenue to RM447.7 million mainly due to increase in CPO price. However, the profit declined by 19% or RM4.5 million to RM19.3 million, compared to RM23.8 million for the financial year 2008. The reduction in profit was mainly due to inventory write-down as a result of the steep decline in palm oil product prices in the second half of the financial year.

PLANTATION OPERATIONS

The revenue from the plantation operations increased by RM20.4 million or 16% to RM144.6 million (inclusive of inter-segment adjustments) in the financial year 2009. The profit also increased by RM10.7 million or 14% to RM86.4 million as compared to RM75.7 million in the financial year 2008 as a result of the better palm oil prices and about 10% increase in FFB production by 24,000 MT as compared to last financial year.

DEVELOPMENT AND PROSPECTS

The long term outlook for the palm oil industry in Malaysia remains good. However, the CPO price is expected to remain volatile for this year and may trend lower over the next 6 months in view of the expected higher production in the second half of the year as Malaysia's and Indonesia's production recovers.

The production capacity of the Group's Keningau mill has increased to 60 MT of FFB/hour. The third mill in Telupid, Sabah with a capacity of 45MT of FFB/hour was successfully commissioned on 18 December 2008. With the expansion in Sabah, the processing capacity of the Group has increased to 950,000 MT of FFB per annum.

Chairman's Statement (cont'd)

AGM 2008

Award by Malaysia Cocoa Board

Downstream milling projects aimed at improving efficiency and reducing palm oil mill wastes through innovations and new technologies under development are as follows:

- (i) The Group's second palm-pressed fibre oil extraction plant at its Keningau mill, Sabah is currently under construction and expected to be commissioned in 2009.
- (ii) The Group plans to install a palm kernel oil solvent extraction plant at its Kota Tinggi mill to improve PKO extraction efficiency.
- (iii) The second Clean Development Mechanism ("CDM") project on methane capture at Keningau is under construction and is expected to be fully commissioned by end of July 2009. Application for third CDM project at Telupid mill will commence in June 2009.

We believe we have created a milling complex prototype which extracts maximum value from various integrated operations and at the same time minimizes impact to the environment. This would contribute to the industry's progress towards sustainable production of palm oil.

The Group's production of FFB is expected to increase by 5% to 10% in the financial year 2010 with a higher yield per hectare due to more favourable age profile. The Group will continue to look into opportunities for increasing its landbank in the states of Johor, Pahang, Sabah and Sarawak and suitable land near its existing palm oil mills through acquisition or joint venture to provide a sustainable and synergistic growth in revenue and profit.

The Group expects an increase in profits from milling operations in financial year 2010 in view of the third palm oil mill in operation at Telupid, Sabah.

In view of the current economic downturn and volatile commodity price, the Group will take measures to mitigate its exposure to any unexpected loss due to sudden drop in CPO price.

Based on the above factors and barring any unforeseen circumstances, the Board expects the Group's performance to remain good in the financial year ending 31 January 2010.

BOARD MATTER

We are saddened by the demise of our beloved Founder and Director, my mother Madam Loo Geok Eng, who passed away peacefully on 13 August 2008. The late Madam Loo through integrity and hard work established the Group which has since grown and diversified under her leadership. Her remarkable entrepreneurial legacy lives on.

APPRECIATION

I would like to take this opportunity to express my appreciation to the Management and Staff for their loyal and dedicated services to the Group, and to various government authorities and agencies, bankers, valued customers and suppliers and business associates for their co-operation and continued support.

Finally, I wish to thank my fellow Board members for their support and the shareholders for their confidence in the Board and Management of the Group.

The new ordinary shares issued during the year rank pari passu in all respects with the existing ordinary shares of the Company.

The Company did not issue any debentures during the financial year.

EMPLOYEES' SHARE OPTION SCHEME

The Company implemented an Employees' Share Option Scheme ("ESOS") which came into effect on 18 March 2005 for a period of 5 years. The ESOS is governed by the By-Laws which was approved by the shareholders on 26 January 2005. On 30 March 2009, the Directors approved to extend the ESOS period for another 5 years from 17 March 2010.

The main features of the ESOS are :

- (i) The total number of new ordinary shares to be issued by the Company under the ESOS shall not exceed 15% of the total issued and paid up ordinary shares of the Company, and such that not more than 50% of the shares available under ESOS is allocated in aggregate to the directors and senior management.
- (ii) Not more than 10% shares available under ESOS is allocated to any individual director or employee who, either singly or collectively through his/her associates, holds 20% or more in the issued and paid up capital of the Company.
- (iii) Only staff and executive directors of the Group are eligible to participate in the scheme. Executive directors are those involved in a full time day-to-day managerial and executive capacity in any company within the Group and on the payroll of the Group.
- (iv) The option price under the ESOS is the five (5) days weighted average market price of the shares of the Company at the time the option is granted, subject to a discount of not more than ten percent (10%) which the Company may at its discretion decide to give, or the par value of the shares of the Company of RM1, whichever is the higher.
- (v) The options granted will be valid up to the extended expiry date of the ESOS on 17 March 2015.
- (vi) An option holder may, in a particular year, exercise up to such maximum number of shares as specified in the option certificate in accordance with By-law 7.4.

The percentage of options exercisable in each of the years during the period of ESOS is as follows :

Options issued in :	Number of share options granted and unexercised as at 31 January 2009	Percentage of options exercisable in financial year 2010 %
2005	991,300	100
2006	55,300	100
2007	502,900	100
2008	1,258,700	100
	2,808,200	

- (vii) The persons to whom the options are granted have no right to participate by virtue of the options in any shares issue of any other company within the Group.
- (viii) Eligible employees are those who have been employed for at least three calendar months of continuous service, after the probation period, and is confirmed in full time service in any company within the Group.

During the financial year, the Company issued 1,891,300 new options (inclusive of 827,900 new options arising from adjustments pursuant to Bonus Issue) to eligible employees. The Company has been granted exemption by the Companies Commission of Malaysia from having to disclose the names of employees who have been granted options to subscribe for less than 100,000 ordinary shares of RM1 each.

Directors' Report (cont'd)

STATUTORY INFORMATION ON THE FINANCIAL STATEMENTS

Before the income statements and balance sheets were made out, the Directors took reasonable steps:-

- (a) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate allowance had been made for doubtful debts; and
- (b) to ensure that any current assets, other than debts, which were unlikely to realise their book values in the ordinary course of business had been written down to their expected realisable values.

At the date of this report, the Directors are not aware of any circumstances:

- (a) which would render the amount written off for bad debts or the amount of allowance for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent; or
- (b) which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading; or
- (c) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.

No contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Group or the Company to meet their obligations when they fall due.

At the date of this report, there does not exist :

- (a) any charge on the assets of the Group or the Company which has arisen since the end of the financial year to secure the liability of any other person; or
- (b) any contingent liability of the Group or the Company which has arisen since the end of the financial year.

At the date of this report, the Directors are not aware of any circumstances not otherwise dealt with in this report or the financial statements which would render any amount stated in the financial statements misleading.

In the opinion of the Directors :

- (a) the results of the operations of the Group and of the Company during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature; and
- (b) there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely to affect substantially the results of the operations of the Group or the Company for the financial year in which this report is made.

HOLDING AND ULTIMATE HOLDING COMPANY

The Directors regard Sharikat Kim Loong Sendirian Berhad, a company incorporated in Malaysia, as the Company's holding and ultimate holding company.

AUDITORS

The auditors, SKW Associates, have expressed their willingness to continue in office.

Independent Auditors Report To The Members Of Kim Loong Resources Berhad (22703 – K)

REPORT ON THE FINANCIAL STATEMENTS

We have audited the financial statements of Kim Loong Resources Berhad, which comprise the balance sheets as at 31 January 2009 of the Group and of the Company, and the income statements, statements of changes in equity and cash flow statements for the year then ended, and a summary of significant accounting policies and other explanatory notes, as set out on pages 52 to 95.

Directors' Responsibility for the Financial Statements

The Directors of the Company are responsible for the preparation and fair presentation of these financial statements in accordance with Financial Reporting Standards and the Companies Act 1965 in Malaysia. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements have been properly drawn up in accordance with Financial Reporting Standards and the Companies Act 1965 in Malaysia so as to give a true and fair view of the financial position of the Group and of the Company as of 31 January 2009 and of their financial performance and cash flows for the year then ended.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with the requirements of the Companies Act 1965 in Malaysia, we also report the following:

- a) In our opinion, the accounting and other records and the registers required by the Act to be kept by the Company and its subsidiaries have been properly kept in accordance with the provisions of the Act.
- b) We are satisfied that the financial statements of the subsidiaries that have been consolidated with the Company's financial statements are in form and content appropriate and proper for the purposes of the preparation of the financial statements of the Group and we have received satisfactory information and explanations required by us for those purposes.
- c) Our audit reports on the financial statements of the subsidiaries did not contain any qualification or any adverse comment made under Section 174(3) of the Act.

OTHER MATTERS

This report is made solely to the members of the Company, as a body, in accordance with Section 174 of the Companies Act 1965 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**a) Basis of preparation**

The financial statements of the Group and of the Company are prepared under the historical cost convention (unless indicated in the significant accounting policies) and comply with the provisions of the Companies Act 1965 and the applicable Financial Reporting Standards.

The preparation of financial statements in conformity with the Financial Reporting Standards requires the use of certain significant accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. It also requires Directors to exercise their judgment in the process of applying the Group's accounting policies. Although these estimates and judgment are based on the Directors' best knowledge of current events and actions, actual results may differ.

b) Adoption of new and revised financial reporting standards

The Group adopted the following new FRSs which are relevant to its operations for the current financial year :

FRS 107	Cash Flow Statements
FRS 112	Income Taxes
FRS 118	Revenue
FRS 137	Provisions, Contingent Liabilities and Contingent Assets

The adoption of the above FRSs does not have any financial impact on the Group except for FRS 112.

The Group has not elected for early adoption of the following FRSs relevant to the current operations of the Group, which were issued but not yet effective for the financial year ended 31 January 2009:

FRS 7	Financial Instruments : Disclosures
FRS 8	Operating Segments
FRS 139	Financial Instruments : Recognition and Measurement

The impact of applying FRS 139 on the financial statements upon first adoption of this standard as required by paragraph 30(b) of FRS 108 Accounting Policies, Changes in Accounting Estimates and Errors is not disclosed by virtue of the exemptions given in FRS 139.

The initial application of the other FRSs and amendments to FRSs is not expected to have any material impact on the financial statements of the Group except for FRS 112:

FRS 112 Income Taxes

The revised FRS 112 requires that entities with unutilised reinvestment allowance or other similar allowances in excess of the normal capital allowance to recognise deferred tax asset to the extent that it is probable that the future taxable profit will be available against which the unused reinvestment allowance or other similar allowances can be utilised.

Notes To The Financial Statements – 31 January 2009 (cont'd)

The financial impacts have been accounted for retrospectively and certain comparatives are restated as follows:

Deferred tax liabilities	41,356,185	(2,815,000)	38,541,185

c) Subsidiary companies and basis of consolidation

Investment in subsidiary companies is stated at cost or valuation less impairment losses, if any. The policy for the recognition and measurement of impairment losses is in accordance with Note 2(t). A company is considered as a subsidiary when the Company owns directly or indirectly more than one half of the voting power of that company or the Company controls the composition of the board of directors or equivalent governing body.

The Group has adopted the policy of revaluing its investment in subsidiary companies based on valuation of land in subsidiary companies on a regular basis at least once in every five years. Investment in subsidiary companies without land is stated at cost less impairment losses, if any. In the Company's separate financial statements, investments in subsidiaries are stated at cost or valuation less impairment losses, if any. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is included in the income statement.

Surpluses arising from revaluation are credited to revaluation reserve. Any deficit arising from revaluation is charged against the revaluation reserve to the extent of previous surplus held in the revaluation reserve for the same assets. In all other cases, a decrease in carrying amount is charged to income statement.

The consolidated financial statements include the financial statements of the Company and its subsidiary companies made up to the end of the financial year. The results of subsidiary companies acquired or disposed of during the year are included in the consolidated income statement from the date of their acquisition or up to the date of their disposal. Inter-company transactions, balances and unrealised gains or losses are eliminated on consolidation.

Minority interests in the net assets (excluding goodwill) of the consolidated subsidiaries are identified separately from the Group's equity therein. Minority interests consist of the amount of those interests at the date of the original business combination and the minority's share of changes in equity since the date of the combination. Losses applicable to the minority in excess of the minority's interests in the subsidiary's equity are allocated against the interests of the Group except to the extent that the minority has a binding obligation and is able to make an additional investment to cover the losses.

The gain or loss on disposal of a subsidiary is the difference between net disposal proceeds and the Group's share of its net assets at the date of disposal.

d) Property, plant and equipment and depreciation and amortisation

Freehold land is stated at cost/valuation less impairment losses, if any. Cost consists of the purchase price and incidental expenditure on acquisition. No depreciation is provided on freehold land.

Notes To The Financial Statements – 31 January 2009 (cont'd)

All other items of property, plant and equipment are initially recorded at cost. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Subsequent to recognition, property, plant and equipment except for freehold land are stated at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is calculated on the straight line basis so as to write off the cost of the property, plant and equipment over their estimated useful lives as follows :

	No. of years
Buildings	20 - 50
Plant and machinery	4 - 17
Equipment, furniture and fittings	10 - 17
Motor vehicles	5 - 10

The policy for the recognition and measurement of impairment losses is in accordance with Note 2(t).

Work-in-progress on property, plant and equipment are stated at cost incurred to balance sheet date and no depreciation is provided on these assets until they are completed and available for use.

The Group has adopted the policy of revaluing its freehold land on a regular basis at least once in every five years.

Surpluses arising from revaluation are credited to revaluation reserve. Any deficit arising from revaluation is charged against the revaluation reserve to the extent of previous surplus held in the revaluation reserve for the same assets. In all other cases, a decrease in carrying amount is charged to income statement.

The residual values, useful life and depreciation method are reviewed at each financial year end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any and the net carrying amount is recognised in income statement and the unutilised portion of the revaluation surplus on that item is taken directly to retained earnings.

e) Prepaid land lease payments

Leasehold land that normally has a definite economic life and where the title is not expected to pass to the lessee by the end of the lease term is treated as an operating lease. Payments made on entering into or acquiring a leasehold land are accounted as prepaid land lease payment and amortised over the remaining lease term. A long lease is a lease with an unexpired period of 50 years or more.

The Group had previously revalued its leasehold land and has retained the unamortised revalued amount as the surrogate carrying amount of prepaid lease payments in accordance with the transitional provisions in FRS 117.

f) Biological assets

Expenditure on development of biological assets represents planting and replanting cost (including interest) incurred from the commencement of development to the date of maturity of the crops. Expenditure on development of biological assets is capitalised at cost and amortised over their estimated useful lives of 15 to 20 years on straightline basis commencing from the date of maturity of the crops. Biological assets are reviewed for impairment in accordance with Note 2(t).

g) Investments

Quoted and unquoted investments which are held as long term investments are stated at cost. Allowance is made for diminution in value where, in the opinion of the Directors, there is a decline, other than temporary, in value of the investments. When there is a reversal of decline in value of these investments, the reversal is credited to the income statement. Such reversal shall be limited to the extent of previous decline in value for the same assets. The market value of the quoted investments is calculated based on the last transacted prices of these investments quoted in the respective stock exchanges at the balance sheet date.

On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the income statement.

Notes To The Financial Statements – 31 January 2009 (cont'd)

h) Intangible assets**Research and development costs**

All research costs are recognised in the income statement as incurred.

Development expenditure relating to the development of new products are recognised as intangible assets.

Expenditure incurred on projects to develop new products is capitalised and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditures which do not meet these criteria are expensed when incurred.

Development costs, considered to have finite useful lives, are stated at cost less any impairment losses and are amortised using the straight-line basis over the commercial lives of the underlying products not exceeding five years. Development expenditure is reviewed for impairment in accordance with Note 2(t).

Goodwill

Acquisitions of subsidiaries are accounted for using the purchase method. The purchase method of accounting involves allocating the cost of the acquisition to the fair value of the asset acquired and liabilities and contingent liabilities assumed at the date of acquisition. The cost of an acquisition is measured as the aggregate of the fair values, at the date of exchange, of the assets given, liabilities incurred or assumed, and equity instruments issued, plus any costs directly attributable to the acquisition.

Any excess of the cost of the acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities represents goodwill.

Gain and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Negative goodwill represents the excess of acquirer's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the cost of a business combination. Negative goodwill is recognised immediately to the income statement.

i) Inventories

Finished goods are stated at the lower of cost and net realisable value on a first-in-first-out basis. Cost being the average cost, consists of materials, labour and attributable overheads in bringing the inventories to their present location and condition. In arriving at net realisable value, due allowance is made for all damaged, obsolete and slow moving items.

Nursery stocks are valued at cost on a first-in-first-out basis. Cost includes cost of seedlings, labour, materials and attributable overheads in bringing the nursery stocks to their present location and condition.

Building materials, supplies, spare parts and consumables are valued at cost on the weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

j) Receivables

Receivables are carried at anticipated realisable value. Known bad debts are written off and specific allowance is made for debts considered to be doubtful of collection.

k) Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents comprise cash in hand, bank balances, demand deposits and short term highly liquid investments which have an insignificant risk of changes in value, net of outstanding bank overdrafts.

l) Share capital

Ordinary shares are classified as equity. Dividends on ordinary shares are accounted for in shareholders' equity as an appropriation of retained profits in the period in which the obligation to pay is established.

Notes To The Financial Statements – 31 January 2009 (cont'd)

m) Other borrowings

Other borrowings are stated based on the proceeds received and payments made on behalf of the Group or Company less subsequent repayments.

n) Interest bearing borrowings

Interest bearing borrowings are initially stated based on the proceeds received or the amount of drawdown. Transaction costs are charged to the income statement. In subsequent periods, borrowings are stated at amount of drawdown less repayment after deducting interest charges.

o) Payables

Payables are carried at fair value of the consideration to be paid in the future for goods and services received, whether billed or not billed to the Group or the Company.

p) Revenue recognition

Revenue from the sale of goods is measured at fair value of the consideration received or receivable, net of discounts and returns. Revenue is recognised when significant risks and rewards of ownership have been transferred to the buyer, it is probable that the economic benefits associated with the transaction will flow to the Group, and there is no continuing management involvement with the goods.

Revenue from power generation activities is recognised upon invoiced value of steam supplied.

Interest income is recognised on a time proportion basis and takes into account the effective yield on the asset.

Management fee income is recognised on the accrual basis.

Rental income is recognised on the accrual basis in accordance with the substance of the rental agreement.

Dividend income is recognised when the right to receive payment is established.

q) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of these assets. Capitalisation commences when activities to plan, develop and construct the qualifying asset are undertaken and ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use are completed. All other borrowing costs are charged to the income statement.

r) Employee benefits**(i) Short term benefits**

Wages, salaries, bonuses and social security contributions are recognised as an expense in the period in which the associated services are rendered by employees of the Group. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

(ii) Defined Contribution Plan

The Group contributes to the Employees Provident Fund (EPF), the national defined contribution plan. Contributions to the defined contribution plan are charged to the income statement in the period in which they relate. Once the contributions have been paid, the Group has no further payment obligations.

(iii) Share-based Compensation

The Kim Loong Resources Berhad Employees' Share Option Scheme ("ESOS"), an equity-settled, share-based compensation plan, allows the Group's employees to acquire ordinary shares of the Company. The total fair value of share options granted to employees is recognised as an employee cost with a corresponding increase in the share option reserve within equity over the vesting period and taking into account the probability that the options will vest. The fair value of share options is measured at grant date, taking into account, if any, the market vesting conditions upon which the options were granted but excluding the impact of any non-market vesting conditions. Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable on vesting date.

Notes To The Financial Statements – 31 January 2009 (cont'd)

At each balance sheet date, the Group revises its estimates of the number of options that are expected to become exercisable on vesting date. It recognises the impact of the revision of original estimates, if any, in the income statement and a corresponding adjustment to equity over the remaining vesting period. The equity amount is recognised in the share option reserve until the option is exercised, upon which it will be transferred to share premium, or until the option expires, upon which it will be transferred directly to retained earnings.

The proceeds received net of any directly attributable transaction costs are credited to equity when the options are exercised.

s) Income taxes

Current tax expense is determined according to the tax laws of each jurisdiction in which the Group operates and includes all taxes based upon the taxable profits, including withholding taxes payable and real property gains taxes payable on disposal of properties.

Deferred tax is recognised in full, using the liability method, on temporary differences arising between the amounts attributed to assets and liabilities for tax purposes and their carrying amounts in the financial statements.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences or unused tax losses can be utilised.

Deferred tax is not recognised if the temporary differences arise from goodwill or negative goodwill or from the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affect neither accounting profit nor taxable profit.

Deferred tax is measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the balance sheet date. Deferred tax is recognised as income or an expense and included in the income statement for the period, except when it arises from a business combination that is an acquisition, in which case the deferred tax is included in the resulting goodwill or the amount of any excess of the acquirer's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the cost of the combination.

t) Impairment of non-financial assets

The carrying amounts of assets, other than inventories and deferred tax assets, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated to determine the amount of impairment loss.

For goodwill, intangible assets that have an indefinite useful life and intangible assets that are not yet available for use, the recoverable amount is estimated at each balance sheet date or more frequently when indicators of impairment are identified.

For the purpose of impairment testing of these assets, recoverable amount is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. If this is the case, recoverable amount is determined for the cash-generating unit (CGU) to which the asset belongs to. Goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's CGUs, or groups of CGUs, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses recognised in respect of a CGU or groups of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to those units or group of units and then, to reduce the carrying amount of the other assets in the unit or groups of units on a pro-rata basis.

An impairment loss is recognised in income statement in the period in which it arises, unless the asset is carried at a revalued amount, in which case the impairment loss is accounted for as a revaluation decrease to the extent that the impairment loss does not exceed the amount held in the asset revaluation reserve for the same asset.

Notes To The Financial Statements – 31 January 2009 (cont'd)

Impairment loss on goodwill is not reversed in a subsequent period. An impairment loss for an asset other than goodwill is reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of an asset other than goodwill is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior years. A reversal of impairment loss for an asset other than goodwill is recognised in income statement, unless the asset is carried at revalued amount, in which case, such reversal is treated as a revaluation increase.

u) Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated into Ringgit Malaysia at the rates of exchange ruling at the balance sheet date. Foreign currency transactions are accounted for at exchange rates ruling at the transaction dates. Exchange differences arising from the settlement of foreign currency transactions and from the translation of monetary assets and liabilities are charged to the income statement.

The principal closing rate used in translation of foreign currency amounts was as follows :

Foreign currency	2009 RM	2008 RM
1 USD	3.61	-

v) Financial instruments**(i) Recognition of financial instruments**

Financial instruments are recognised in the balance sheet when the Group has become a party to the contractual provisions of the instrument.

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. Interest, dividends and gains and losses relating to a financial instruments classified as a liability, are reported as expense or income. Distributions to holders of financial instruments classified as equity are recognised directly in equity. Financial instruments are offset when the Group has a legally enforceable right to offset and intends to settle either on a net basis or to realise the asset and settle the liability simultaneously.

(ii) Fair value estimation for disclosure purposes

The fair value of quoted securities is based on the quoted market prices at the balance sheet date.

In assessing the fair value of non-traded financial instruments, the Group makes assumptions that are based on market conditions existing at the balance sheet date. Estimated discounted value of future cash flows is used to determine the fair value of the financial instruments. In particular, the fair value of financial liabilities is estimated by discounting the future contractual cash flows at the current market interest rate available to the Group.

The carrying amounts for financial assets and liabilities with a maturity period of less than one year are assumed to approximate their fair values.

w) Segment reporting

A business segment is identified as a separate segment where the product or services provided by the segment is subject to risks and returns that are different from those of other business segments. Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

The Group does not identify segments by geographical location as it operates only in Malaysia.

The accounting policies adopted in segment reporting are identical to the accounting policies of the Group.

x) Reporting currency

The financial statements are presented in Ringgit Malaysia.

Notes To The Financial Statements – 31 January 2009 (cont'd)

3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGMENTS

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined below :

Deferred tax assets

Deferred tax assets are recognised to the extent that is probable that future taxable profits will be available against which the unused tax losses, unabsorbed capital allowances and unutilised reinvestment allowance or other similar allowances in excess of normal capital allowance can be utilised. This involves judgment regarding the future financial performance of the particular entity in which the deferred tax assets have been recognised.

The total amount of recognised deferred tax assets on the unused tax losses, unabsorbed capital allowance and unutilised reinvestment allowance or other similar allowances in excess of normal capital allowance of the Group was approximately RM14,773,000 (2008 : RM9,453,000). The amount of temporary differences not recognised as deferred tax assets of the Group was approximately RM2,698,000 (2008 : RM2,416,000).

Depreciation of property, plant and equipment and biological assets

The cost of property, plant and equipment and biological assets for the palm oil industry is depreciated on a straight line basis over the useful lives of the assets. Management estimates the useful lives of these assets to be within 4 to 50 years. The estimation of the useful lives of property, plant and equipment and biological assets are based on the internal technical evaluation and experience with similar assets. Changes in the expected level of usage and technological developments could impact the economic useful lives of these assets, therefore future depreciation charges could be revised.

Chan An Nee, member of the Institute of Surveyors, Malaysia, a registered valuer with CCO & Associates, Chartered Valuation Surveyors.

The Directors did not adjust the book values of the freehold land to reflect the new value as their fair market value approximates their book value.

2007 Options	1.67	N/A	29/3/2007 - 17/3/2010

Note: The exercisable period of share options outstanding at the end of the year is subject to the By-law terms and conditions as disclosed in the Directors' Report.

- (ii) Share options exercised during the year :

Share options exercised during the financial year resulted in the issuance of 1,238,700 (2008 : 3,575,400) ordinary shares at an average price of RM1.38 (2008 : RM1.18) each. The related weighted average share price at the date of exercise was RM3.51 (2008 : RM2.23).

- (iii) Fair value of share options granted during the year

The fair value of share options granted during the year was estimated using Black Scholes model, taking into account the terms and conditions upon which the options were granted. The fair value of share options measured at grant date and the assumptions are as follows :

	2009	2008
Fair value of share options at the following grant dates (RM):		
27 March 2008	0.597	-
29 March 2007	-	0.427
Weighted average share price (RM)	3.31	2.11
Weighted average exercise price (RM)	3.18	1.67
Expected volatility (%)	38.75	20.30
Expected life (years)	1.61	2.27
Risk-free rate (%)	3.42	3.44
Expected dividend yield (%)	5.44	4.74

The expected life of the options is based on historical date and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome. No other features of the options granted were incorporated into the measurement of fair value.

Warrants 2005/2012

The main features of the Warrants are as follows :

- Each warrant will entitle its registered holder during the exercise period to subscribe for one new ordinary share at the exercise price, which has been fixed at RM1.00 per share, subject to adjustment in accordance with the provisions of the Deed Poll.
- The Warrants may be exercised at any time on or after 22 April 2007 until the end of the tenure of the Warrants. The tenure of the Warrants is for a period of seven (7) years. The Warrants not exercised during the exercise period shall thereafter lapse and become void.

Notes To The Financial Statements – 31 January 2009 (cont'd)

- (c) The new ordinary shares of RM1 each allotted pursuant to the exercise of the Warrants shall upon allotment and issue, rank pari passu in all respects with the existing ordinary shares of the Company, except that they shall not be entitled to any dividends that may be declared in respect of the financial year prior to the date of allotment and issue of the new shares, nor shall they be entitled to any rights, allotments, distributions or such entitlements for which the record date is prior to the date of allotment and issue of the new shares.

For the purpose hereof, record date means the date on which as at the close of business the shareholders or debenture holders of the Company must be registered in the register of members or Record or Depositors or the relevant register of debenture holders (as the case may be) in order to participate in such dividends, rights, allotments or other distributions.

During the financial year, a total number of 1,341,483 additional Warrants 2005/2012 have been issued pursuant to the adjustment arising from the Bonus Issue.

Warrants exercised during the financial year resulted in 4,809,941 (2008 : 34,922,595) new ordinary shares being issued at RM1.00 each. The weighted average share price at the time of exercise was RM3.56 (2008 : RM2.49) per share.

The number of Warrants unexercised as at balance sheet date was 4,308,947 (2008 : 7,777,405).

Company

The revaluation reserve represents surplus, net of tax, arising from the revaluation of certain leasehold land and investment in certain subsidiary companies less amount capitalised through bonus issue and impairment of investment in subsidiary companies.

Notes To The Financial Statements – 31 January 2009 (cont'd)

20. OPTION RESERVE (NON-DISTRIBUTABLE)**Group and Company**

Option reserve relates to the provision for share-based payment expenses. This reserve is transferred to the share premium over the period when the ESOS is exercised.

21. RETAINED PROFITS**Company**

Prior to the year of assessment 2009, Malaysian companies adopted the full imputation system. In accordance with the Finance Act 2007 which was gazetted on 28 December 2007, companies shall not be entitled to deduct tax on dividend paid, credited or distributed to its shareholders, and such dividends will be exempted from tax in the hands of the shareholders ("single tier system"). However, there is a transitional period of six years, expiring on 31 December 2013, to allow companies to pay franked dividends to their shareholders under limited circumstances. Companies also have an irrevocable option to disregard the 108 balance and opt to pay dividends under the single tier system. The change in the tax legislation also provides for the 108 balance to be locked-in as at 31 December 2007 in accordance with Section 39 of the Finance Act 2007.

The Company has not elected for the irrevocable option to disregard the 108 balance. Accordingly, during the transitional period, the Company may utilise the credit in the 108 balance as at 31 December 2007 to distribute cash dividend payments to ordinary shareholdings as defined under the Finance Act 2007. As at 31 January 2009, the Company has sufficient credit in the 108 balance and the exempt income account to pay net dividends of RM9,639,000 (2008 : RM66,013,000) out of retained profits without incurring additional tax liability.

22. OTHER BORROWINGS**Group**

Other borrowings consist of an amount which arose from the acquisition of a long leasehold land and contributory loans from minority shareholders of subsidiary companies. These borrowings are unsecured and interest-free.

Group

Tax savings during the financial year arising from utilisation of previously unrecognised tax losses is RM3,860 (2008 : Nil).

Domestic current income tax is calculated at the statutory tax rate of 25% (2008 : 26%) of the estimated assessable profit for the year. The domestic statutory tax rate has been reduced to 25% from the previous year's rate of 26%. The computation of deferred tax as at 31 January 2009 has reflected these changes.

For the year of assessment 2008, subsidiary companies with a paid-up share capital of RM2,500,000 and below, enjoyed a tax rate of 20% on the first RM500,000 taxable income. This rate is not available to these subsidiaries for the current financial year.

35. EARNINGS PER SHARE**Group**

Earnings per share for the Group is calculated based on profit after tax and minority interests of RM65,375,115 (2008 : RM58,517,405) over the weighted average number of ordinary shares in issue during the financial year of 300,520,321 (2008 : 264,742,145).

Diluted earnings per share for the Group for the financial year ended 31 January 2009 is calculated based on profit after tax and minority interests of RM65,375,115 (2008 : RM58,517,405) over the adjusted weighted average number of shares of 303,440,987 (2008 : 269,190,689).

The adjusted weighted average number of shares is calculated based on the weighted average number of ordinary shares in issue during the financial year and adjusted for the following :

- 1) the number of ordinary shares that could have been issued under the Company's ESOS; and
- 2) the number of ordinary shares that could have been converted from the Warrants issued by the Company

Shares that are anti-dilutive are ignored in the computation of diluted earnings per share.

The diluted earnings per share for financial year ended 31 January 2009 is calculated as follows :

	2009 RM	2008 RM
Net profit attributable to equity holders of the Company	65,375,115	58,517,405
Weighted average number of ordinary shares in issue	300,520,321	264,742,145
Impact on shares under option that would have been issued at fair value:		
- ESOS	634,699	827,004
- Warrants	2,285,967	3,621,540
	303,440,987	269,190,689
Diluted earnings per share (sen)	21.5	21.7

Notes To The Financial Statements – 31 January 2009 (cont'd)

The earnings per share and diluted earnings per share of 30.9 sen and 30.0 sen respectively for the financial year 2008 have been adjusted, pursuant to the adjustment arising from Bonus Issue completed during the year, to 22.1 sen and 21.7 sen respectively.

36. DIVIDENDS**Company**

42. CONTINGENT LIABILITIES (UNSECURED)**Company**

The Company provided corporate guarantees for seven (2008 : seven) of its subsidiary companies in respect of credit facilities totalling RM51,697,000 (2008 : RM40,595,000) granted to the subsidiary companies by licensed financial institutions. Accordingly, the Company is contingently liable to the extent of the amount of the credit facilities of RM31,087,535 (2008 : RM16,804,269) utilised by these subsidiary companies.

43. FINANCIAL INSTRUMENTS**(a) Financial risk management objectives and policies**

The Group's financial risk management policy seeks to ensure that adequate financial resources are available for the development of the Group's businesses.

(b) Credit risk

Credit risk arises because substantial sales are made on deferred payment terms. Credit risk is controlled by careful selection of customers, setting credit limits and limiting the period of credit. The carrying amount of receivables represents the Group's maximum credit risk exposure. The Group does not have any significant exposure to any individual customer.

(c) Market risk

The Group is exposed to market risk caused by changes in debt and equity prices because of its investment in quoted securities. The risk is not significant as the Group's investment in quoted securities is not significant.

(d) Interest rate risk

The Group's primary interest rate risk relates to interest bearing debts. The Group manages its interest rate exposure by maintaining as far as practical, a mix of fixed and floating rate borrowings.

The Group's other interest rate risk relates to its placement of fixed deposits with financial institutions. The Group's policy is to obtain the most favourable interest rates available.

(e) Liquidity and cash flow risks

The Group seeks to achieve a balance between cash outflows and cash inflows. Financial commitments are monitored so as not to go beyond the Group's ability to repay or finance.

(f) Foreign currency exchange risk

The Group is not materially exposed to foreign exchange risk as the Groups' transactions and balances are denominated in Ringgit Malaysia.

(g) Fair values

The carrying amounts of financial assets and liabilities of the Group and the Company at the balance sheet dates approximated their fair values at these dates except as set out below :

Notes To The Financial Statements – 31 January 2009 (cont'd)

Group

	2009		2008	
	Carrying amount RM	Fair value RM	Carrying amount RM	Fair value RM
Non-current liabilities				
Other borrowings :

- without fixed terms of repayment	7,671,774	*	6,143,510	*
	13,671,774		12,543,510	

* It is not practical to estimate reliably the fair value of these other borrowings as they have no fixed terms of repayment.

45. EVENT AFTER THE BALANCE SHEET DATE

On 21 May 2009, a subsidiary company, Kim Loong Palm Oil Mills Sdn. Bhd. ("KLPO"), entered into a Joint Venture and Shareholders Agreement ("JV Agreement") with Prominent Platform Sdn. Bhd. ("PPSB") for the purpose of undertaking a palm kernel crushing and solvent extraction project to maximise recovery of crude palm kernel oil at the palm oil mill of KLPO at Kota Tinggi, Johor through a joint venture company called Sungkit Enterprise Sdn. Bhd. ("SESB").

Currently, SESB is a wholly owned subsidiary of KLPO. Pursuant to the JV Agreement, KLPO will transfer 30% of its shareholdings or 60,000 shares in SESB at par to PPSP.
